

Audit and Budget Committee Report  
April and May 2019

During the months of April and May the Audit and Budget Committee began working on the budget for 2019-2020. For the budget process to work as smoothly as possible, the Committee held a budget workshop in early May to help the newly elected Magistrates gain a more thorough understanding of the County budget. Once this workshop took place, the Committee was able to begin working on the budget. Having a balanced budget was a main topic that was discussed within the Committee.
